

DOWNLOAD & PRINT VALENTINE TAGS

Print the following pages of tag designs, as many as you need.

Using scissors or a paper cutter, cut tags along the gray lines.

Attach the tags to products using one of the following methods:

LOLLIPOPS #1

In each individual tag, punch a hole at the center top, and center bottom. Slide lollipop stick through the punched holes so the stick is behind the tag design.

LOLLIPOPS #2, CHOCOLATE ROSES, PRETZEL RODS

Punch a single hole in the center top OR in one of the top corners of the tag. Thread ribbon through and tie onto lollipop or item. If using curling ribbon, curl ends using scissors for more decoration.
